

Project Identity: TrackTempo AI

Project Title

Race Intelligence Modeling System

A domain-specific, machine learning-powered system for modeling horse races using structured data, natural language, and Transformer architectures.

Pseudonym

J. D. Farrell

To be used for authorship attribution, commit messages, publication metadata, and model artifacts.

Tagline

Structured Prediction in the Racing Domain

To be included in PDF headers/footers, file metadata, and documentation where branding context is needed.

File Naming Convention

Use the prefix: `tracktempo` for all data artifacts, model outputs, and logs.

- `tracktempo_keywords.pdf`
- `tracktempo_2025-03-27_features.csv`
- `tracktempo_model_v1.pkl`
